Table-2: Application Characteristics:

S.No	Characteristics	Description	Technology
1.	Open-Source Frameworks	List the open-source frameworks used	Python
2.	Security Implementations	List all the security / access controls implemented, use offirewalls etc.	Encryption,Firewall,Antivirus
3.	Scalable Architecture	Justify the scalability of architecture (3 – tier, Micro-services)	Supports higher workloads
4.	Availability	Justify the availability of application (e.g. use of loadbalancers, distributed servers etc.)	High availability enables your ITinfrastructure to continue functioning even when some of itscomponents fail.
5.	Performance	Design consideration for the performance of the application (number of requests per sec, use of Cache,use of CDN's) etc.	A field of practice that uses various tools, processes, and ideas in a scientific manner toimprove the desired outcomes of individualsand organizations.
